Spanish Dramatists of the Golden Age Sep 13 2021 The 16th and 17th centuries were the most fruitful periods for Spanish literature. The Golden Age of Spanish drama extends from the close of the 15th century to the death of Calderon in 1681. During that time, Spanish playwrights looked to Italy for inspiration, but

from the beginning they sought to avoid slavish imitation of classical and Italian drama. Instead, these playwrights attempted to give Spanish drama its own identity. This reference includes alphabetically arranged essays for 19 of the most important Spanish dramatists of the Golden Age. Each essay provides extensive biographical information, a critical discussion of the playwright's dramatic production, a critical analysis of one major play, and a bibliography of primary and secondary sources. The volume closes with a selected general bibliography on the most important drama of this period.

Coups d'état à la fin du moyen âge? Jan 18 2022 Forgé par Gabriel Naudé, au temps baroque d'une raison d'État triomphante, le concept de « coup d'État » peut-il s'appliquer à des âges antérieurs, en particulier à celui de la genèse médiévale de l'État moderne ? C'est à cette question d'histoire rétrospective qu'ont tenté de répondre les auteurs de cet ouvrage. Leurs réponses, qui dessinent un vaste panorama occidental et comparatiste - de l'Angleterre à la péninsule italienne et de la péninsule Ibérique à la Suède - tendent à démontrer que, bien avant de devenir un concept, le coup d'État a d'abord été une pratique généralisée. Car, quelle que soit la nature du régime politique en vigueur ici ou là, que le coup d'État vienne du dedans ou du dehors, qu'il soit perpétré par ceux qui ont le pouvoir ou par ceux qui le contestent et projettent de s'en emparer, il ramène aux fondements même d'une construction étatique en quête d'assurance et de réassurance. En d'autres termes, le coup d'État est comme une pratique constituante.

**Charles Bronson** Feb 25 2020 This work covers Bronson's entire output in film and on television, and includes many film stills and photographs.

Alphabetical entries list film or episode, complete cast and credits, and year of release. Accompanying each entry's plot synopsis and discussion is a survey of the critical responses to the work. The great Charles Laughton once said Bronson "has the strongest face in the business, and he is also one of its best actors." Pretty high praise for an actor who, though loved by fans worldwide, has been consistently underestimated by critics. Bronson's career has spanned five decades, from such television appearances in *The Fugitive*, *Rawhide*, *Bonanza* and *Have Gun, Will Travel* as well as the telemovie *A Family of Cops* (1995) and its two sequels. He will long be remembered for his role as urban vigilante Paul Kersey in the *Death Wish* films. Bronson is one of the most enigmatic, and also most recognizable, of all film stars.

**More about 'Tirant lo Blanc' / Més sobre el 'Tirant lo Blanc'** May 29 2020 The articles in this volume highlight the fact that the chivalric novel *Tirant lo Blanc* – written in Valencia by Joanot Martorell in the 15th century and translated into Italian in the 16th century – keeps being relevant in both the Italian and the Iberian Peninsulas, so closely related in past and present. The knight Joanot Martorell wrote a classic of universal literature despite the fact that he belonged to a minority culture.

Nowadays, after having been translated into numerous languages, it is studied in many European and American universities and elicits great interest among researchers, as proven by the contributions included in this book.

*The Desclergues of la Villa Ducal de Montblanc* Dec 05 2020 This book, consisting of almost 70 chapters, spread over ten parts and a foreword section, covers the following topics. A prelude and introduces the reader to the world of Heraldry, the Town and the Duchy of Montblanc in Spain and Onomastics. Finally, it provides a brief history to understand the book's chronological context better. A part on genetics is provided to outline the DNA analysis, made by different commercial companies, of the genes of the author and his brother-in-law. The investigations compare genetics with the genealogy provided in this work and are consistent. They show, for instance, that the author is a male descendent of the Desclergues of Montblanc and is equally blood-related to them through his mother, consistent with what the records provide. Furthermore, an autosomal analysis reveals a percentage-wise appearance, in agreement with the documents, of DNA strings originating from Spain, where the Desclergues came from, and Brittany, where they had their ancient paternal roots.

Concerning the DNA of his brother in law, illustrative for his wife, the author discovered results in agreement with his wife's ancestors' history. A Part Brittany in France goes deeper into the life of Bertrand Du Guesclin and the fact that he begot offspring in Spain. The latter is well-known, and the book provides a comprehensive literature survey on this subject. Apart from autosomal DNA, pointing at ancient roots in Brittany, the author also uncovered indications in documents retrieved in Spain in the archives of de Pedrolo, equally descendants of the Desclergues. A major Part describes the Desclergue family of Montblanc and their settlement in Belgium. A lot of this knowledge had already been described by earlier investigators, and an exhaustive overview of all existing knowledge about the family is provided insofar as published in the past. In addition, the author provides extensive research results not described formerly, particularly of the Desclergues who left Spain for Flanders around 1600 and their descendants. The unravelled archives include civil and ecclesiastic records and documents found in the libraries of some Spanish military strongholds in Flanders. The book situates the facts in history and supplies valuable general knowledge to broad readers. The data range from the 1500s until the present and cover the author's paternal ancestry line. Numerous military campaigns in the 16th and 17th centuries are clarified, with particular attention to the lives and involvements of the Desclergues. As a coincidence, the author's mother also stems from the Desclergues, and this line is equally represented. A large part is devoted to the de Silva family of Uduwara from whom the author's wife stems. This is particularly interesting to globe trotters and describes the long paternal history of the author's wife, Shirani de Silva. The bloodline originated in the North West of India and migrated through Persia to Byzantine. They continued to Iberia, where they arrived as new settlers and mixed with locals. The family line of Carvalho, so initiated, later blended with de Silva, consequently migrated to Goa during the Iberian expansion to India. From Goa, they relocated to Uduwara in Sri Lanka to protect a fortification on the Kalu Ganga river. The evidence contains documents, DNA analysis and

new archaeological findings in Uduwara and Goa. Other ancestry lines are described separately. Some may only be interesting to his descendants; others are, again, of general interest, such as the family of de Patin that played an essential role during the Belgian Austrian era. Although not anticipated early in this research, the author discovered Antoni Desclergue's (DC06) involvement in establishing a chapel in Deerlijk in Belgium. The evidence is provided by archaeological discoveries and records and is extensively described in a separate part. The facts are essential in understanding the influence of Monblanquians in Flanders but are also thought-provoking for the inhabitants of Deerlijk. Indeed, the village's ancient legend of a miracle in 1634 is based on solid ground and not on a fairy tale as one believed during the previous decennia. The nobleman in the story was Antoni Desclergue, while the events were almost an exact copy of the legend of Mare de Deu de la Serra in Montblanc. The main difference is that oxen were involved in Montblanc and horses in Deerlijk. The oldest known depiction of the miracle exposes an image of Monblancs Mare de Deu de la Serra and discloses Antoni Desclergue's initials. Furthermore, Antoni Desclergue later ornamented the chapel with the artwork. For instance, he provided a polychrome panel depicting the Main Square of Montblanc, including the House of Desclergue and also a beautiful statuette by Cano.
