The only comprehensive guide to automotive companies and trends. Can one car transform a nation? The Ford Model T did do so a century ago when it replaced the horse, brought about a revolution in agriculture, became a stimulus to urbanization that eventually changed the landscape of America. Though the Maruti 800, the Tata Indica, the Hyundai Santro and the Maruti Alto, became engines of growth for India, these cars neither drove away the cow nor changed the way Indians travelled. Tata's Nano was expected to change all that and become the ultimate people's car, capturing the imagination of the middle class across nations and cultures. In spite of its petite dimensions, the Nano was meant to stand tall. Yet it did not. What caused it to fail and fall from grace despite being lauded as the 'right product at the right time' and 'the most significant new car since the Ford Model T was introduced 100 years ago'? But is it really all over or is there still hope for India's 'little wonder'? What will the people's cars of tomorrow be like? A Million Cars for a Billion People delves into the questions, concerns and doubts, as well as the many misconceptions and myths, that have gathered momentum over the years about India's automotive history and the industry's mission to create a true 'people's car'. The very first cars that came to India; the

early beginnings of the industry; the nascent history of the automobile across nations like Germany, France, US, the UK, Italy, Japan and South Korea, is narrated with authority and charm, from the viewpoint of the quest for the ultimate people's car. This topical volume covers the intersection between transport and climate change, with papers from the 'Transport & Climate Change' session of the RGS-IBG conference in London, September 2010. На то, чтобы реанимировать ситуацию, у специалистов ушло больше недели. Так о Дмитрие Артимовиче узнал весь мир.Сразу активизировались российские и зарубежные журналисты. Все вновь заговорили о страшных и бескомпромиссных русских хакерах: действительно ли они способны влиять на все, начиная от мировых банков и заканчивая выборами президента США? Кто же они на самом деле, правдивы ли слухи о них, связаны ли хакеры с государством и как вообще становятся взломщиком? В своей книге Д. Артимович подробно и обескураживающе отвечает на эти вопросы. All Rights Reserved From the completely juvenile yet brilliant mind of Sidharth Sharotri comes a compilation of his 'serious automobile journalism' work, which consisted of him driving posh cars and making up stories around them for newspapers. Jak souvisí logo Maserati s fontánou z 16. století? Je slovo Aero spojeno jen s českou automobilkou, nebo najdeme vozy tohoto jména i v jiných částech světa? Co přesně jsou „daňové koně“? Vymysleli název Citroën Elysée Číňané? Jak ovlivnil vývoj automobilového průmyslu fakt, že zakladatelé značek Ferrari a Lamborghini spolu nevycházeli? Ing. Jiří Fiala (publicista, automobilový historik a sběratel automobilové literatury) a doc. Petr Strossa (vědec, expert přes jazyky a dorozumívání s počítači) předkládají všem automobilovým fanatikům unikátní výkladový slovník jmen značek a jejich typů, který obsahuje hesla o přibližně 1600 značkách a více než 5000 typech a modelech. Čtenáři v knize najdou mimo jiné základní informace o výrobcích automobilů, jejich filozofii označování typů, používání interních kódů či recyklování názvů vozů. Dozvědí se, proč se jeden automobil prodával pod různými názvy, proč se některá jména nesměla používat nebo jakých dosáhly jednotlivé vozy sportovních úspěchů. Vůbec poprvé je u nás pak publikován systém kódů sovětských vozidel a přehled čínských značek a výrobců. Zvláštní pozornost je věnována znakům (logům) všech důležitých značek, jejich vzniku a proměnám v čase. Celá tato speciální problematika je navíc zasazena do kontextu společenských a geopolitických událostí a okořeněná množstvím pozoruhodných

historek a kuriozit souvisejících s auty, jejich jmény a výrobci.
