A non-fiction narrative family memoir that gives an inside experience into the pathos of the Depression, the handling of raging hormones, college life and a 56-year marriage. The ax is an indispensable tool for every woodsman. The Ax Book is a thorough guide to cutting wood with hand tools. Even those who use chainsaws and other power equipment need to be familiar with the hand tools of their craft. An ideal resource for anyone who wants to fell trees and take lumber or firewood from the wood lot or forest. The author explains how to use various types of axes, hatchets, mauls, saws, and wedges, and their use and care to take down trees, section and split and prepare firewood. In addition he shows every aspect of dealing with wood from the forest right to the hearth or stove. Reports for 1897-1908 include the Report of inspection of factories, 5th-16th. Step back in time and take an in-depth look at the men behind the machinery. This dynamic history explores Henry Ford's endeavors into the tractor industry through the Ford and Fordson brand, and the dream Harry Ferguson and Ford shared to make farming more efficient and safe. Plows, cultivators, planters, middlebusters, disks, dozers, scoops, loaders, and Ferguson's 3-point system are all covered. Filled with photos of restored equipment, as well as archival photography, advertisements, and brochures. Includes models and serial numbers. Harold H. "Dynamite" Payson is a professional boatbuilder who specializes in light plywood construction, though in the past he build traditional plank-on-frame craft. Most of his boats-among them the famed Gloucester Light Dory and the Instant Boat series-are from the board of Philip C. Bolger. Many of the prototypes of Bolger's small boats have been built by Payson as part of their continuing association. Dynamite is a retired lobster fisherman, a saw sharpener, and the proprietor of H.H.Payson & Co., which offers boatbuilding plans for sale to the average boatbuilder. He is the author of Instant Boats, How to Build the Gloucester Light Dory, Go Build Your Own Boat!, Build the New Instant Boats, and a number of magazine articles. He lives and works in South Thomaston, Maine. Real-life stories will take you back to the time when families stood shoulder to shoulder, working against Depression, dearth and drought to build a better life together. This is the story of a child of Italian heritage, brought into this world from January 7, 1935, to 2020. Feel the joy the pain, the tears, the fears through five significant emotional events and period in a life that was lived to the fullest, not always in the straightest line and sometimes without boundaries, without caring or fearing, but that is who I am. The underlying philosophy in my heart and mind: "Life is for living and loving...everything else is BS." Love can be expressed in many ways and forms. From a simple smile of recognition or understanding, a handshake, a hug, a pat on the back...perhaps a kiss or warm embrace, or to total committed love.

All are acts of love... Have a love affair with everyone you meet. The world will love you, and God will smile. Includes Part 1A: Books and Part 1B: Pamphlets, Serials and Contributions to Periodicals "Cases argued and determined in the Court of Appeals, Supreme and lower courts of record of New York State, with key number annotations." (varies) Reports for 1898-1908 include the Report of state inspection of factories, 6th-16th. "Well-ripened sound fruit is healthful. It is also a valuable food. It should form a part of every meal, fresh where possible, or dried, canned or otherwise preserved. Home-grown fruit is desirable -- Because it reaches the family fresh and in the best possible condition. Because the family has fruit of which it would often be deprived if it had to be purchased. Because, if the proper varieties to be selected, a continuous supply of fruit of superior quality may be secured regardless of market prices. Because any surplus may be sold without difficulty or may be canned, evaporated, or otherwise conserved for use when fresh fruit is not available. Because the care of the home fruit garden provides for spare time congenial and profitable occupation which is in reality recreation for those who enjoy seeing things grow, This bulletin aims to furnish, in concise form, information that will be of practical help to the beginner in fruit growing. It deals with the widely grown, temperate-climate fruits, such as the apple, pear, peach, and plum. Lists of desirable varieties of these fruits are given for the different parts of the country. Because of the number of fruits considered and the territory covered, cultural directions are necessarily brief, but they cover the most important general points." -- p. 2 "Manual of the apiary" by Albert John Cook. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten or yet undiscovered gems of world literature, we issue the books that need to be read. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format. "The hay stacker is to stacking what the horse-fork is to putting hay in the barn, a saver of man labor. It enables the farmer to lift the hay on to the stack by horse power instead of man power. The stacker is used almost universally in the West where stacking is the usual method of storing hay. In the East and South, where much of the hay grown is stored under cover, the stacker could be used to advantage when it becomes necessary to stack, especially where labor is scarce. Where the stacker is used, a boy or woman, driving the team that hoists the hay, can take the place of a man in the haying operation. Stackers are comparatively inexpensive; there are several serviceable types which may be cheaply made at home." -- [2]
