*Mastered by the Clock* Jul 12 2021 Challenging traditional assumptions about the plantation economy's reliance on a pre-modern, nature-based conception of time, Mark M. Smith shows how and why southerners--particularly masters and their slaves--came to view the clock as a legitimate arbiter of time. Ironically, Smith shows, freedom largely consolidated the dependence of masters as well as freedpeople on the clock.

*American Slavery, Atlantic Slavery, and Beyond* Apr 08 2021 American Slavery, Atlantic Slavery, and Beyond provides an up-to-date summary of past and present views of American slavery in international perspective and suggests new directions for current and future comparative scholarship. It argues that we can better understand the nature and meaning of American slavery and antislavery if we place them clearly within a Euro-American context. Current scholarship on American slavery acknowledges the importance of the continental and Atlantic dimensions of the historical phenomenon, comparing it often with slavery in the Caribbean and Latin America. However, since the 1980s, a

handful of studies has looked further and has compared American slavery with European forms of unfree and nominally free labor. Building on this innovative scholarship, this book treats the U.S. "peculiar institution" as part of both an Atlantic and a wider Euro-American world. It shows how the Euro-American context is no less crucial than the Atlantic one in understanding colonial slavery and the American Revolution in an age of global enlightenment, reformism, and revolutionary upheavals; the Cotton Kingdom's heyday in a world of systems of unfree labor; and the making of radical Abolitionism and the occurrence of the American Civil War at a time when nationalist ideologies and nation-building movements were widespread.

[Liberty, Slavery and the Law in Early Modern Western Europe](#)

Nov 03 2020 This book investigates the legal evolution of the "free soil principle" in England, France and the Low Countries during the Early Modern period (ca. 1500-1800), which essentially stated that, as soon as slaves entered a certain country, they would immediately gain their

freedom. This book synthesizes the existing literature on the origins and evolution of the principle, adds new insights by drawing on previously undiscussed primary sources on the development of free soil in the Low Countries and employs a pan-Western, European and comparative approach to identify and explain the differences and similarities in the application of this principle in France, England and the Low Countries. Divided into four sections, the book begins with a brief introduction to the subject matter, putting it in its historical context. Slavery is legally defined, using the established international law definition, and both the status of slavery in Europe before the Early Modern Period and the Atlantic slave trade are discussed. Secondly, the book assesses the legal origins of the free soil principle in England, France and the Low Countries during the period 1500-1650 and discusses the legal repercussions of slaves coming to England, France and the Low Countries from other countries, where the institution was legally recognized. Thirdly, it addresses the further development of the free soil principle during the period 1650-1800. In the fourth and last section, the book uses the insights gained to provide a pan-Western, European and

comparative perspective on the origins and application of the free soil principle in Western Europe. In this regard, it compares the origins of free soil for the respective countries discussed, as well as its application during the heyday of the Atlantic slave trade. This perspective makes it possible to explain some of the divergences in approaches between the countries examined and represents the first-ever full-scale country comparison on this subject in a book.

*Historical Dictionary of Slavery and Abolition* Aug 25 2022

Slavery's origins lie far back in the mists of prehistoric times and have spanned the globe, two facts that most history texts fail to address. This comprehensive volume provides a historical overview of slavery through the ages, from prehistoric times to the modern day, while detailing the different forms, the various sources, and the circumstances existing in different countries and regions. As a broad reference source, it provides a complete look at slavery by discussing the causes and cures, as well as the plight of those who fought for and against it. Every public, college, and high school library will want this available for students and other researchers.

**Bitter Fruits of Bondage** Jan 24 2020

In this controversial history the author tells the story of how the Civil War and slavery were intertwined, and how internal social conflict undermined the Confederacy in the end.

Slavery in America Feb 28 2023 Designed specially for undergraduate course use, this new textbook is both an introduction to the study of American slavery and a reader of core texts on the subject. No other volume that combines both primary and secondary readings covers such a span of time--from the early seventeenth century to the Civil War. The book begins with a substantial introduction to the entire volume that gives an overview of slavery in North America. Each of the twelve chapters that follow has an introduction that discusses the leading secondary books and articles on the topic in question, followed by an essay and three primary documents. Questions for further study and discussion are included in the chapter introduction, while further readings are suggested in the chapter bibliography. Topics covered include slave culture, the slave-based economy, slavery and the law, slave resistance, pro-slavery ideology, abolition, and emancipation. The essays, by such eminent historians as Drew Gilpin Faust, Don E. Fehrenbacher, Eric Foner, John Hope Franklin, and Sylvia R. Frey, have been selected for their teaching value and ability to provoke discussion. Drawing on black and white, male and female experiences, the primary documents come from a wide variety of sources: diaries, letters, laws, debates, oral testimonies, travelers' accounts, inventories, journals, autobiographies, petitions, and novels.

The Mark of Slavery Oct 27

2022 Exploring the disability history of slavery Time and again, antebellum Americans justified slavery and white supremacy by linking blackness to disability, defectiveness, and dependency. Jenifer L. Barclay examines the ubiquitous narratives that depicted black people with disabilities as pitiable, monstrous, or comical, narratives used not only to defend slavery but argue against it. As she shows, this relationship between ableism and racism impacted racial identities during the antebellum period and played an overlooked role in shaping American history afterward. Barclay also illuminates the everyday lives of the ten percent of enslaved people who lived with disabilities. Devalued by slaveholders as unsound and therefore worthless, these individuals nonetheless carved out an unusual autonomy. Their roles as caregivers, healers, and keepers of memory made them esteemed within their own communities and celebrated figures in song and folklore. Prescient in its analysis and rich in detail, *The Mark of Slavery* is a powerful addition to the intertwined histories of disability, slavery, and race.

*Slavery and the Cultures of Abolition* May 29 2020

Slavery as depicted in literature and culture is examined in this wide-ranging collection. On 25 March 1807, the bill for the abolition of the Slave Trade within the British colonies was passed by an overwhelming majority in the House of Commons, becoming law from 1 May. This new collection of

essays marks this crucial but conflicted historical moment and its troublesome legacies. They discuss the literary and cultural manifestations of slavery, abolition and emancipation from the eighteenth century to the present day, addressing such subjects and issues as: the relationship between Christian and Islamic forms of slavery and the polemical and scholarly debates these have occasioned; the visual representations of the moment of emancipation; the representation of slave rebellion; discourses of race and slavery; memory and slavery; and captivity and slavery. Among the writers and thinkers discussed are: Frantz Fanon, William Earle Jr, Olaudah Equiano, Charlotte Smith, Caryl Phillips, Bryan Edwards, Elizabeth Marsh, as well as a wide range of other thinkers, writers and artists. The volume also contains the hitherto unpublished text of an essay by the naturalist Henry Smeathman, *Oeconomy of the Slave Ship*. Contributors: GEORGE BOULUKOS, DEIRDRE COLEMAN, MARAROULA JOANNOU, GERALD MACLEAN, FELICITY NUSSBAUM, DIANA PATON, SARA SALIH, LINCOLN SHLENSKY, MARCUS WOOD

**The Black Man in Slavery and Freedom in Colonial Brazil** Dec 25 2019

*Race Relations at the Margins* Mar 27 2020 Covering a broad geographic scope from Virginia to South Carolina between 1820 and 1860, Jeff Forret scrutinizes relations among rural poor whites and slaves, a subject previously unexplored

and certainly under-reported. Forret's findings challenge historians' long-held assumption that mutual violence and animosity characterized the two groups' interactions; he reveals that while poor whites and slaves sometimes experienced bouts of hostility, often they worked or played in harmony and camaraderie. *Race Relations at the Margins* is remarkable for its focus on lower-class whites and their dealings with slaves outside the purview of the master. Race and class, Forret demonstrates, intersected in unique ways for those at the margins of southern society, challenging the belief that race created a social cohesion among whites regardless of economic status. As Forret makes apparent, colonial-era flexibility in race relations never entirely disappeared despite the institutionalization of slavery and the growing rigidity of color lines. His book offers a complex and nuanced picture of the shadowy world of slave-poor white interactions, demanding a refined understanding and new appreciation of the range of interracial associations in the Old South.

**Slavery and the Slave Trade in the Eastern Mediterranean (c. 1000-1500 CE)** Apr 20 2022

"Slavery has played a significant role in the history of human society, not the least in the greater Mediterranean region, since ancient times. Long neglected by mainstream historians, the medieval history of slavery has received an increasing amount of attention

by scholars, since the pioneering work of Charles Verlinden (1907-1996). Today historians have generally laid to rest the nineteenth-century preoccupation with whether slavery was a significant 'mode of production' in the post-classical period, to concentrate on the changing face of the institution over time by looking at legal norms, linguistic representations and social practice. This volume presents a multi-faceted and interdisciplinary approach to slavery and the slave trade in the Eastern Mediterranean region in the pre-modern period, placing these into a larger historical and cultural context. It surveys the significance of slavery in the three monotheistic traditions, the involvement of Eastern and Western merchants and other agents in the slave trade, and offers new interpretations concerning the nature of this commerce."--

*Slavery and the Internal Slave Trade in the United States of North America* Oct 15 2021

*Slavery and the Remedy* Nov 15 2021 Reprint of the original, first published in 1859. The publishing house Anatiposi publishes historical books as reprints. Due to their age, these books may have missing pages or inferior quality. Our aim is to preserve these books and make them available to the public so that they do not get lost.

**A History of Slavery and Emancipation in Iran, 1800-1929** Dec 05 2020 The

first history of slavery in this key Middle Eastern country and how it shaped the nation's unique character. Slavery in the Middle East is a growing field of study, but the history of slavery in a key country, Iran, has never before been written. This history extends to Africa in the west and India in the east, to Russia and Turkmenistan in the north, and to the Arab states in the south. As the slave trade between Iran and these regions shifted over time, it transformed the nation and helped forge its unique culture and identity. Thus, a history of Iranian slavery is crucial to understanding the character of the modern nation. Drawing on extensive archival research in Iran, Tanzania, England, and France, as well as fieldwork and interviews in Iran, Behnaz A. Mirzai offers the first history of slavery in modern Iran from the early nineteenth century to emancipation in the mid-twentieth century. She investigates how foreign military incursion, frontier insecurity, political instability, and economic crisis altered the patterns of enslavement, as well as the ethnicity of the slaves themselves. Mirzai's interdisciplinary analysis illuminates the complex issues surrounding the history of the slave trade and the process of emancipation in Iran, while also giving voice to social groups that have never been studied: enslaved Africans and Iranians. Her research builds a clear case that the trade in slaves was inexorably linked to the authority of the state. During periods of greater decentralization, slave trading

increased, while periods of greater governmental autonomy saw more freedom and peace. "This is a major contribution to the study of enslavement in Iran, which will doubtlessly become a must-read for any future studies of Middle Eastern and Islamic enslavement and abolition, as well as for any work on Iranian history in general." —Ehud R. Toledano, Tel Aviv University, author of *As If Silent and Absent: Bonds of Enslavement in the Islamic Middle East* "While this book will be revelatory to scholars of Iran, it also promises to engage with theoretical trends in the study of slavery elsewhere. It frames many research questions broadly to engage with scholars of slavery in other Muslim lands, as well as slavery elsewhere." —Kamran Scot Aghaie, University of Texas at Austin, coeditor of *Rethinking Iranian Nationalism and Modernity* [The History of Slavery and the Slave Trade, Ancient and Modern](#) Apr 01 2023 This book is intended for general reading, and may also serve as a book of reference. It is an attempt to compile and present in one volume the historical records of slavery in ancient and modern times- the laws of Greece and Rome and the legislation of England and America upon the subject- and to exhibit some of its effects upon the destinies of nations.

#### **Slavery and the Slave Trade**

May 22 2022 A well-illustrated account that deals with slavery from ancient times through the 19th century.

#### **Slavery and the Making of**

**America** May 02 2023 The history of slavery is central to understanding the history of the United States. *Slavery and the Making of America* offers a richly illustrated, vividly written history that illuminates the human side of this inhumane institution, presenting it largely through stories of the slaves themselves. Readers will discover a wide ranging and sharply nuanced look at American slavery, from the first Africans brought to British colonies in the early seventeenth century to the end of Reconstruction. The authors document the horrors of slavery, particularly in the deep South, and describe the valiant struggles to escape bondage, from dramatic tales of slaves such as William and Ellen Craft to Dred Scott's doomed attempt to win his freedom through the Supreme Court. We see how slavery set our nation on the road of violence, from bloody riots that broke out in American cities over fugitive slaves, to the cataclysm of the Civil War. Along the way, readers meet such individuals as "Black Sam" Fraunces, a West Indian mulatto who owned the Queen's Head Tavern in New York City, a key meeting place for revolutionaries in the 1760s and 1770s and Sergeant William H. Carney, who won the Congressional Medal of Honor for his bravery at the crucial assault on Fort Wagner during the Civil War as well as Benjamin "Pap" Singleton, a former slave who led freed African Americans to a new life on the American frontier.

**Slavery and the War** Feb 16 2022

*Slavery and the American South* Jun 22 2022 AMERICAN HISTORY -- African American - -> In 1900 very few historians were exploring the institution of slavery in the South. But in the next half century, the culture of slavery became a dominating theme in Southern historiography. In the 1970s it was the subject of the first Chancellor's Symposium in Southern History held at the University of Mississippi. Since then, scholarly interest in slavery has proliferated ever more widely. In fact, the editor of this retrospective volume states that since the 1970s "the expansion has resulted in a corpus that has a huge number of components-scores, even hundreds, rather than mere dozens." He states that "no such gathering could possibly summarize all the changes of those twenty-five years." Hence, for the Chancellor Porter L. Fortune Symposium in Southern History in the year 2000, instead of providing historiographical summary, the participants were invited to formulate thoughts arising from their own special interests and experiences. Each paper was complemented by a learned, penetrating reaction. "On balance," the editor avers in his introduction, "reflection about the whole can convey a further sense of the condition of this field of scholarship at the very end of the last century, which was surely an improvement over what prevailed at the beginning." The collection of papers includes the following: "Logic

and Experience: Thomas Jefferson's Life in the Law" by Annette Gordon-Reed, with commentary by Peter S. Onuf; "The Peculiar Fate of the Bourgeois Critique of Slavery" by James Oakes, with commentary by Walter Johnson; "Reflections on Law, Culture, and Slavery" by Ariela Gross, with commentary by Laura F. Edwards; "Rape in Black and White: Sexual Violence in the Testimony of Enslaved and Free Americans" by Norrece T. Jones, Jr., with commentary by Jan Lewis; "The Long History of a Low Place: Slavery on the South Carolina Coast, 1670-1870" by Robert Olwell, with commentary by William Dusingberre; "Paul Robeson and Richard Wright on the Arts and Slave Culture" by Sterling Stuckey, with commentary by Roger D. Abrahams. Winthrop D. Jordan is William F. Winter Professor of History and professor of African American studies at the University of Mississippi. His previous books include "White Over Black: American Attitudes toward the Negro, 1550-1812" and "The White Man's Burden: Historical Origins of Racism in the United States," and his work has been published in the "Atlantic Monthly," "Daedalus," and the "Journal of Southern History," among other periodicals.

The Atlantic and Africa Jun 10 2021 Traces the inner connections between the second slavery in the Americas, slavery in Africa, the abolition of the Atlantic slave trade, and the "Great Transformation" of the nineteenth century world economy. The Atlantic and

Africa breaks new ground by exploring the connections between two bodies of scholarship that have developed separately from one another. On the one hand, the "second slavery" perspective that has reinterpreted the relation of Atlantic slavery and capitalism by emphasizing the extraordinary expansion of new frontiers of slave commodity production and their role in the economic, social, and political transformations of the nineteenth-century world-economy. On the other hand, Africanist scholarship that has established the importance of slavery and slave trading in Africa to the political, economic and social organization of African societies during the nineteenth century. Taken together, these two movements enable us to delineate the processes forming the capitalist world-economy, establish its specific geographical and historical structure, and reintegrates Africa into the transformations in the world economy. This volume explores this paradigm at diverse levels ranging from state formation and the reorganization of world markets to the creation of new social roles and identities. Dale W. Tomich is Professor of Sociology and History at Binghamton University, State University of New York. He is the author of *Slavery in the Circuit of Sugar* and editor of *Atlantic Transformations: Empire, Politics and Slavery during the Nineteenth Century*, both published by SUNY press. Paul E. Lovejoy is Distinguished Research

Professor of History at York University, Canada. He is the author of many books, including *Slavery in the Global Diaspora of Africa* and *Jihad in West Africa during the Age of Revolutions*.

**Race to Revolution** Aug 13 2021 The histories of Cuba and the United States are tightly intertwined and have been for at least two centuries. In *Race to Revolution*, historian Gerald Horne examines a critical relationship between the two countries by tracing out the typically overlooked interconnections among slavery, Jim Crow, and revolution. Slavery was central to the economic and political trajectories of Cuba and the United States, both in terms of each nation's internal political and economic development and in the interactions between the small Caribbean island and the Colossus of the North. Horne draws a direct link between the black experiences in two very different countries and follows that connection through changing periods of resistance and revolutionary upheaval. Black Cubans were crucial to Cuba's initial independence, and the relative freedom they achieved helped bring down Jim Crow in the United States, reinforcing radical politics within the black communities of both nations. This in turn helped to create the conditions that gave rise to the Cuban Revolution which, on New Year's Day in 1959, shook the United States to its core. Based on extensive research in Havana, Madrid, London, and throughout the U.S., *Race to Revolution* delves deep into the

historical record, bringing to life the experiences of slaves and slave traders, abolitionists and sailors, politicians and poor farmers. It illuminates the complex web of interaction and influence that shaped the lives of many generations as they struggled over questions of race, property, and political power in both Cuba and the United States.

*Slavery and Colonial Rule in Africa* Dec 17 2021 This book brings together a series of new case studies, some by young scholars, others by widely published authors. All are based on original research and designed to enhance our understanding of the process of the abolition of slavery in Africa at the grass-roots level. Part of the studies are on new areas of interest such as the German colonies and the Algerian Sahara. Others throw new light on questions already debated, such as emancipation of the Gold Coast. Some focus on the impact of abolition on particular groups of slaves, such as the royal slaves in Nigeria and concubines in Morocco. Among the themes considered is the role of slaves in their own emancipation, the short and long-term results of abolition, the role of the League of Nations, and the vestiges of slavery in Africa today.

*A World Transformed* Oct 03 2020 "First published in Great Britain in 2022 by Robinson"--Title page verso

*Challenging the Boundaries of Slavery* Feb 25 2020 "This book views slavery in a new light and underscores the human tragedy at the heart of the

American story."--Jacket. *Ebony and Ivy* Nov 27 2022 A leading African-American historian of race in America exposes the uncomfortable truths about race, slavery and the American academy, revealing that our leading universities, dependent on human bondage, became breeding grounds for the racist ideas that sustained it. *Slavery and the Post-Black Imagination* Mar 08 2021 From Kara Walker's hellscape antebellum silhouettes to Paul Beatty's bizarre twist on slavery in *The Sellout* and from Colson Whitehead's literal Underground Railroad to Jordan Peele's body-snatching *Get Out*, this volume offers commentary on contemporary artistic works that present, like musical deep cuts, some challenging "alternate takes" on American slavery. These artists deliberately confront and negotiate the psychic and representational legacies of slavery to imagine possibilities and change. The essays in this volume explore the conceptions of freedom and blackness that undergird these narratives, critically examining how artists growing up in the post-Civil Rights era have nuanced slavery in a way that is distinctly different from the first wave of neo-slave narratives that emerged from the Civil Rights and Black Power Movements. Slavery and the Post-Black Imagination positions post-blackness as a productive category of analysis that brings into sharp focus recent developments in black cultural productions across various media. These ten

essays investigate how millennial black cultural productions trouble long-held notions of blackness by challenging limiting scripts. They interrogate political as well as formal interventions into established discourses to demonstrate how explorations of black identities frequently go hand in hand with the purposeful refiguring of slavery's prevailing tropes, narratives, and images. A V Ethel Willis White Book *Slavery and the University* Dec 29 2022 Slavery and the University is the first edited collection of scholarly essays devoted solely to the histories and legacies of this subject on North American campuses and in their Atlantic contexts. Gathering together contributions from scholars, activists, and administrators, the volume combines two broad bodies of work: (1) historically based interdisciplinary research on the presence of slavery at higher education institutions in terms of the development of proslavery and antislavery thought and the use of slave labor; and (2) analysis on the ways in which the legacies of slavery in institutions of higher education continued in the post-Civil War era to the present day. The collection features broadly themed essays on issues of religion, economy, and the regional slave trade of the Caribbean. It also includes case studies of slavery's influence on specific institutions, such as Princeton University, Harvard University, Oberlin College, Emory University, and the University of Alabama. Though

the roots of Slavery and the University stem from a 2011 conference at Emory University, the collection extends outward to incorporate recent findings. As such, it offers a roadmap to one of the most exciting developments in the field of U.S. slavery studies and to ways of thinking about racial diversity in the history and current practices of higher education.

Aug 01 2020

*Slavery and Emancipation* Mar 20 2022

Slavery and Emancipation is a comprehensive collection of primary and secondary readings on the history of slaveholding in the American South combining recent historical research with period documents. The most comprehensive collection of primary and secondary readings on the history of slaveholding in America. Combines recent historical research with period documents to bring both immediacy and perspective to the origins, principles, realities, and aftermath of African-American slavery. Includes the colonial foundations of slavery, the master-slave relationship, the cultural world of the planters, the slave community, and slave resistance and rebellion. Each section contains one major article by a prominent historian, and three primary documents drawn from plantation records, travellers' accounts, slave narratives, autobiographies, statute law, diaries, letters, and investigative reports.

### **The Half Has Never Been Told** Sep 25 2022

Winner of the 2015 Avery O. Craven Prize from the Organization of American Historians Winner of the 2015 Sidney Hillman Prize A groundbreaking history demonstrating that America's economic supremacy was built on the backs of slaves Americans tend to cast slavery as a pre-modern institution -- the nation's original sin, perhaps, but isolated in time and divorced from America's later success. But to do so robs the millions who suffered in bondage of their full legacy. As historian Edward E. Baptist reveals in *The Half Has Never Been Told*, the expansion of slavery in the first eight decades after American independence drove the evolution and modernization of the United States. In the span of a single lifetime, the South grew from a narrow coastal strip of worn-out tobacco plantations to a continental cotton empire, and the United States grew into a modern, industrial, and capitalist economy. Told through intimate slave narratives, plantation records, newspapers, and the words of politicians, entrepreneurs, and escaped slaves, *The Half Has Never Been Told* offers a radical new interpretation of American history.

**Slavery in Small Things** Jan 30 2023 *Slavery in Small Things: Slavery and Modern Cultural Habits* is the first book to explore the long-range cultural legacy of slavery through commonplace daily

objects. Offers a new and original approach to the history of slavery by an acknowledged expert on the topic. Traces the relationship between slavery and modern cultural habits through an analysis of commonplace objects that include sugar, tobacco, tea, maps, portraiture, print, and more. Represents the only study that utilizes common objects to illustrate the cultural impact and legacy of the Atlantic slave trade. Makes the topic of slavery accessible to a wider public audience.

**Slavery and the Slave Trade at the Nation's Capital** Sep 13 2021

**African American Slavery and Disability** Jan 18 2022  
Disability is often mentioned in discussions of slave health, mistreatment and abuse, but constructs of how "able" and "disabled" bodies influenced the institution of slavery has gone largely overlooked. This volume uncovers a history of disability in African American slavery from the primary record, analyzing how concepts of race, disability, and power converged in the United States in the first half of the nineteenth century. Slaves with physical and mental impairments often faced unique limitations and conditions in their diagnosis, treatment, and evaluation as property. Slaves with disabilities proved a significant challenge to white authority figures, torn between the desire to categorize them as different or defective and the practical need to incorporate their "disorderly" bodies into daily life. Being physically "unfit" could

sometimes allow slaves to escape the limitations of bondage and oppression, and establish a measure of self-control. Furthermore, ideas about and reactions to disability—appearing as social construction, legal definition, medical phenomenon, metaphor, or masquerade—highlighted deep struggles over bodies in bondage in antebellum America.

**Remembering Slavery** Apr 28 2020 "A Best Book of the Year" —Library Journal and Booklist  
Using excerpts from the thousands of interviews conducted with ex-slaves in the 1930s by researchers working with the Federal Writer's Project, this astonishing collection makes available in print the only known recordings of people who actually experienced slavery--recordings that had gathered dust in the Library of Congress until they were rendered audible for the first time specifically for this collection. Heralded as "a minor miracle" (Ted Koppel, Nightline), "powerful and intense" (Atlanta Journal Constitution), and "invaluable" (Chicago Tribune), Remembering Slavery is sure to enrich readers for years to come. "Gripping and poignant... Moving recollections fill a void in the slavery literature." —The Washington Post Book World "Chilling [and] riveting... This project will enrich every American home and classroom." —Publisher's Weekly "Quite literally, history comes alive in this unparalleled work." —Library Journal "Ira

Berlin's fifty-page introduction is as good a synthesis of current scholarship as one will find, filled with fresh insights for any reader." —The San Diego Union Tribune

**American Statesmen on Slavery and the Negro** Jun 30 2020 The authors intend to provide a missing element in American history by providing quotes dealing with such topics as why Washington wouldn't free his slaves even though he didn't believe in slavery, how Lincoln felt about racial integration, how Wilson felt about the Ku Klux Klan, and why Jackie Robinson criticized Kennedy.
