**Sinking Saints** Sep 27 2022 In their quest to embrace sinners, believers have now come to love the sinner more than they hate sin. Author Etta B. Harbin shares ten compelling reasons why the sin-laden 21st century church is on the verge of experiencing the impending judgment of God. Sinking Saints: Ten Reasons Why Judgment Must Begin in the House of God is a compelling expose that unearths the skulls and bones of secret sins lying dormant in every Christian home and local assembly, and initiates the critical process of awakening and cleansing the church of all its well-known, but ignored, closet crimes. Sinking Saints offers practical solutions that will return the long awaited passion for Christ to Christians worldwide. *Ten reasons why I will not pay church rates* Mar 02 2023

**Ten Reasons to Stay** Oct 29 2022 A delightful eNovella from New York Times bestselling author Sabrina Jeffries about a young woman who learns that you can't learn about love from a textbook. In “Ten Reasons to Stay,” previously published in the anthology *The School for Heiresses*, lessons go far beyond etiquette and needlepoint. Eliza Crenshawe's lesson is to look before she leaps. But when she discovers that her new guardian plans to marry her off without so much as a Season, she forgets all that. She flees—on a horse she unwittingly steals (oops!)—from Colin Hunt, a newly minted earl who wants nothing more than for her to go home...or stay forever.

*The Case Against Masks* May 31 2020 Do we really need to wear masks? From the New York Times Bestselling authors of *Plague of Corruption* comes the must-read guide on masks and re-opening following the COVID-19 pandemic. **THE CASE AGAINST MASKS** is the book all America needs to be reading as we emerge from the COVID-19 pandemic. Written by New York Times bestselling authors Dr. Judy Mikovits and Kent Heckenlively, this book reviews the evidence for and against widespread public masking as provided by the Centers for Disease Control and the Mayo Clinic, as well as top scientific publications such as the *New England Journal of Medicine* and *The Lancet*. This debate needs to take place without fear and paranoia. Important questions raised in this book are the affect of masks on oxygen and carbon dioxide levels, how SARS-CoV-2 spreads, the effectiveness of various types of masks, those who are most vulnerable to COVID-19, and whether our children should go back to school in the fall, and if so, what measures they should take. The authors' previous book, **PLAGUE OF CORRUPTION**, was the runaway science bestseller of 2020, and the authors bring that same passion and attention to detail to the mask question. As politicians and bureaucrats of all stripes are weighing in on this question, with some placing their cities and states under mandatory masking provisions, we need to understand the science behind their decisions. Are such measures a reasonable response to current circumstances, or is it a dramatic overreach, which in many cases might make the situation even worse? America desperately needs this public conversation to take place with the best science we have available. As Americans have always done during difficult times, we must summon the courage to have these challenging conversations.

Ten Reasons Why I Believe the Bible Is the Word of God Mar 22 2022 I was brought up to believe that the Bible was the Word of God. In early life I accepted it as such upon the authority of my parents, and never gave the question any serious thought. But later in life my faith in the Bible was utterly shattered through the influence of the writings of a very celebrated, scholarly and brilliant sceptic. I found myself face to face with the question, Why do you believe the Bible is the Word of God? I had no satisfactory answer. I determined to go to the bottom of this question. If satisfactory proof could not be found that the Bible was God's Word I would give the whole thing up, cost what it might. If satisfactory proof could be found that the Bible was God's Word I would take my stand upon it, cost what it might. I doubtless had many friends who could have answered the question satisfactorily, but I was unwilling to confide to them the struggle that was going on in my own heart; so I sought help from God and from books, and after much painful study and thought came out of the darkness of scepticism into the broad daylight of faith and certainty that the Bible from beginning to end is God's Word. The following pages are largely the outcome of that experience of conflict and final victory. I will give Ten Reasons why I believe the Bible is the Word of God.

Factfulness Feb 01 2023 "When asked simple questions about global trends - what percentage of the world's population lives in poverty, why the world's population is increasing, how many girls finish school - we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, investment bankers, and Nobel laureates. [Here] ... Hans Rosling - together with his two longtime collaborators, Anna and Ola - offers a radical new exploration of why this happens. They reveal the ten instincts that divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse)."--Jacket.

**Pointe Work** May 24 2022 Every dancer, no matter her age, dreams about her first pair of pointe shoes! Pointe Work, the Second Book in the Garage Ballet series, mentors both teachers, parents, and the vulnerable pre-pointe student. This book explains what to look for in physical ability, what to expect during the first year on pointe, and what effort is required to produce the best results. Excellence on pointe stands at the heart of every ballet performance and speaks directly to a student's future as a female dancer because to advance, pointe work is an absolute must! Pointe work improves balance, flexibility, and artistic expression. Ultimately, this relates to better performance. Make sure you understand the preparation necessary to ensure a successful transition to the greater demands placed on the body by pointe work. In this comprehensive guide, you'll learn: The History of the Signature Skill - Why pointe? Where did the tradition come from? Why has it stood the test of time? Benefits of dancing on pointe - If you're not on balance, you're not on pointe. Age Recommendations Class Requirements Strength and Technique Levels - Correct Preparation for Pointe Work Beware! Proceed with caution! Pointe work at its best is thrilling, fearless freedom; at its worst, an embarrassing disaster. Started too soon before strength and technique are solid, pointe work can completely derail a student. Ignore best-tested practices and pointe shoes become a painful issue that manifests in bloody, blistered feet or even debilitating injuries if the student is truly not ready. Recognize other priceless secrets: Standing vs. Dancing on pointe The Connection between Petite Allegro (Little Jumps) and Pointe Work Proficiency = Attendance and Commitment Is there a reliable Test for Pointe? As an added bonus: Special Considerations for Adult "first time" pointe students Dawn Crouch possesses an "all sides of the fence" perspective and appreciates not only the tradition and technique of ballet but also the concerns of teachers, students, and parents. A native of New Orleans, she received her early training from Lelia Haller, danced with Houston Ballet, and has taught at ballet schools throughout the southeast. Mrs. Crouch passionately believes that ballet training is a lifetime asset with proven value for every student. Get the answers you need to practical questions! Build a foundation for success! Buy Garage Ballet's Guide to Pointe Work today! "There is no teacher I would trust more with the training of my dancers than Dawn Crouch. Her approach to a dancer's ballet education is by far her greatest strength." PHILLIP OTTO - Artistic Director, Huntsville Ballet "Miss Dawn Is a teacher who always boosted my confidence. She went beyond the simple technique of ballet and allowed ballet class to be a haven for artistic expression. As I now teach young students ballet, I hope to instill the same confidence and artistry that Miss Dawn cultivated in me." HANNAH BOX - University of South Florida; Patel Conservatory, Tampa "I had the good fortune of being trained by Dawn Crouch. She instilled not only technique and work ethic but a love for the arts that still drives me today in my dancing and in training the next generation." MADISON GRACE LYNN - Savannah Ballet

How We Change May 04 2023 The Coronavirus pandemic has revealed a very big secret we've been keeping from ourselves and each other: We can be remarkably agile in the face of change. How is it that we are able to so radically and rapidly change our daily behavior in order to follow the social distancing and stay-at-home policies during the pandemic, and yet--pandemic or not--we typically find it difficult, if not impossible, to reach smaller personal goals like dieting, getting organized or changing destructive habits? The pandemic is life-threatening, so it ignites our survival instincts, activating that part of our brains charged with speedily and efficiently getting us to safety. But cholesterol, alcohol, and physical passivity are all life-threatening, and many of us humans have done a lousy job changing in regard to these issues, even when we have reliable information that they are killing us. Why do we struggle to change what would so obviously help ourselves individually? Ross Ellenhorn's book, How we Change (and the Ten Reasons Why We Don't) gives a fascinating answer. A clinician and thought leader in the mental health and addiction fields, he suggests that we're often looking in the wrong direction when we try to

decipher the factors that support human change. He suggests that it's much more fruitful to look at why we don't change, than figure out why we do. By looking at the reasons we don't change, we give ourselves the best chance of actually changing in meaningful ways. Ellenhorn explains how we are wired to double down on the familiar because of what he calls the "Fear of Hope" - the act of protecting ourselves from further disappointment—and identifies the "10 Reasons Not to Change" to help us see why we behave the way we do when we are faced with the challenge of hope. Among them are: · To change means raising your expectations and thus risking that you'll disappoint yourself. · Once you change, you are more accountable to make other changes than if you stayed the same · When you change, your future become much less predictable. · Change means destroying psychological monuments you've built to commemorate past injuries · Every time you change, you raise the possibility of losing or disrupting your relationship with certain people By addressing this little known reality of fear of hope, and how it influences the 10 Reasons Not to Change, Ellenhorn actually gives us hope, helping us to work toward the change we seek. Ellenhorn speaks to the core of our insecurities and fears about ourselves, with a humor and kindness. By turning our judgments about self-destructive behaviors into curious questions about them, he teaches us to think about our actions to discover what we truly want - even if we're going about getting it in the wrong way. How We Change is a brilliant approach that will forever alter our perspective - and help us achieve the transformation we truly seek.
