I need not tell you of the great quarrels that have happened in our neighbourhood since the death of the late Lord Strutt;* how the parson** and a cunning attorney got him to settle his estate upon his cousin Philip Baboon, to the great disappointment of his cousin Esquire South. Some stick not to say that the parson and the attorney forged a will; for which they were well paid by the family of the Baboons. Let that be as it will, it is matter of fact that the honour and estate have continued ever since in the person of Philip Baboon. * Late King of Spain. ** Cardinal Portocarero. You know that the Lord Strutts have for many years been possessed of a very great landed estate, well conditioned, wooded, watered, with coal, salt, tin, copper, iron, etc., all within themselves; that it has been the misfortune of that family to be the property of their stewards, tradesmen, and inferior servants, which has brought great incumbrances upon them; at the same time, their not abating of their expensive way of living has forced them to mortgage their best manors. It is credibly reported that the butcher's and baker's bill of a Lord Strutt that lived two hundred years ago are not yet paid. When Philip Baboon came first to the possession of the Lord Strutt's estate, his tradesmen, * as is usual upon such occasions, waited upon him to wish him joy and bespeak his custom. The two chief were John Bull, ** the clothier, and Nic. Frog, *** the linendraper. They told him that the Bulls and Frogs had served the Lord Strutts with draperyware for many years; that they were honest and fair dealers; that their bills had never been questioned; that the Lord Strutts lived generously, and never used to dirty their fingers with pen, ink, and counters; that his lordship might depend upon their honesty that they would use him as kindly as they had done his predecessors. The young lord seemed to take all in good part, and dismissed them with a deal of seeming content, assuring them he did not intend to change any of the honourable maxims of his predecessors. This first-of-its-kind catalog of Elton John's decades-long career tells the story of one of rock's all-time greatest artists, album-by-album and track-by-track. Organized chronologically and covering every album and song that Sir Elton Hercules John has ever released, Elton John All the Songs draws upon years of research to tell the behind-the-scenes stories of how each song was written, composed, and recorded, down to the instruments used and the people who played them. Spanning more than fifty-years of work from Elton and his longtime collaborator, Bernie Taupin, this book details the creative processes that resulted in seminal albums like Goodbye Yellowbrick Road, Madman Across the Water, and Tumbleweed Connection, as well as Academy Award wins for 1995's Lion King and 2020's Rocketman. Newer work like The Lockdown Sessions, which released in 2021, is also featured alongside Billboard stats, tour dates, producing and mixing credits, and other insider details that will keep fans turning pages. Starting with the artist's early days working as a studio musician in London, and featuring interviews with actors, musicians, collaborators, and confidantes, Elton John All the Songs offers readers the most detailed portrait of the artist and his creative process that has ever been produced. Featuring hundreds of vivid photographs that celebrate one of music's most visually arresting performers, Elton John All the Songs is the authoritative guide to one of rock'n'roll's greatest stars. The book WinCrafting is about creating profound levels of winning in every area of life which truly matters to an individual. The book begins by suggesting the phrase "The Beautiful Music Possibility" as a new METRIC, and also a new TERRITORY. When you look at each area of your life which you really care about, and consider the question, "How's it going?" ... is what you see as beautiful as the most beautiful music you've ever heard in your life, or something less than that? When an individual really does create "beautiful music" in their life (whether in a particular situation such as a conflict, or over the longer term, e.g., in their relationships and educational and career paths), there are ALWAYS three very specific steps which they have followed in order to have that happen. But people have not been taught what those steps ARE. For example, in the presence of conflict, people have been taught (for CENTURIES!) to wield ideas which are absolutely terrible soil in which to attempt to grow profound levels of winning. The author, John Rice, refers to these ideas ... such as "win-lose" and "managing conflict" ... as "ideas which have failed the test of time." A person MUST learn the NEW ideas (which are presented in detail in the book), ideas which are "good soil," and allow the planting and growth and blossoming of gorgeous and inspiring creations! John has given the name "WinCrafting" to that process. John suggests that, in terms of human history, we humans have been moving away from the notion that "survival" is all that matters, and deeply into a desire for THRIVING! If a person hopes to THRIVE during the course of their lifetime, they will have to become a PIONEER into the new Territory of The Beautiful Music Possibility. And just like Lewis and Clark's Corps of Discovery, they will need to pack along with them, as they venture out, the tools which a person MUST have in order to thrive in the new territory. (One of the most-used phrases during that earlier century was "Go West, Young Man" ... the book suggests that perhaps we can think about "Going Best, Young Man and Woman!") But in our modern age, the most important tools for the pioneers described in the book are not such things as shovels and weapons ... the most important tools for us now are IDEAS! And the WinCrafting ideas are absolutely essential to the creation of a pleasing and successful life in the new territory! The book first shares the ideas which are foundational, which a person must be aware of (and hopefully, master) in order to create profound levels of winning in their life and the lives of people around them, and in particular the people who are most dear to them. It then explains how to APPLY those ideas, beginning by being able to be EFFECTIVE ... truly, profoundly, and QUICKLY effective ... in the presence of conflict. And then the book proceeds to discuss how to best use those ideas in order to generate Beautiful Music in such areas as one's Relationships, and their Educational and Career Paths! The author suggests, with all his heart, that you read this book, take in the ideas which are presented in it and learn to apply those ideas to challenging situations which appear in your life (not only in the presence of "conflicts," but in such things as your relationships and educational and career paths). You can join the growing number of individuals who are the Pioneers into the WinCrafting Domain, and create joy and satisfaction ... travel to Win-Win and Beyond, and into the Domain of WinCrafting and The Beautiful Music Possibility! The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance. Who was Jesus? What did he say? What did he do? This book puts together the story of Jesus' life and message told by the people who knew him best as recorded in the four Gospels of the Bible—Matthew, Mark, Luke, and John. Although the words were written over 2000 years ago, his message of peace, hope, love,

and forgiveness still resonates with people today. All About Jesus combines the four reports of Jesus' life into a single story from beginning to end, using the easy-to-read text of the NIV Bible. Take a new look at Jesus— his life, his miracles, and his teachings—and to come to your own conclusions about the carpenter from Nazareth. Produced in collaboration with the International Bible Society (now Biblica). John, an unmotivated seven year old is taken back in time by an adult angel. She tries to teach him the true meaning of life. He returns from his many adventures and tells his family about the angel, but none of them believe him. A child angel wants to be his guardian and comes to visit him. The child angel must get John to tell him about every adventure the adult angel took him through, but John is too lazy to tell him. John puts the job off on his sister and brother, but first he has to convince them there is an angel wanting to hear the stories. John wonders why his family, who professes to believe in angels and goes to church, can't believe that he has seen two angels. The baby angel, Joshua, gives John the gift to communicate with all animals, but his family thinks he is making it up. Meanwhile the family is planning a grand vacation with their father who is in on furlong. The family pets are to go also, that is, if they can get stubborn Rambo, their huge dog, to get his shots for the trip. At the vet, Rambo runs into the woods. Meow, the cat, and Baby, the small dog, along with John follow him. They end up at John's grand-parents' farm where they get into all kinds of humorous mischief. When Joshua shows up again, he promises John if someone will tell him the story, he will take all of the children and animals to another dimension where they will have a spectacular vacation climax. The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively. John Benumeane, a budding solar engineer who's just moved to Southern California, learns the hard way how cruel and unrelenting Mother Nature can be. It's the winter of 2004; an El Niño is back with a vengeance. A horrific weather-related accident--a car collision with a two-hundred-year-old eucalyptus tree--lands John in the hospital, where he'll spend the next two years in a coma, locked in a struggle between life and death. He awakens in a different world than the one he left. Although he suffers no physical impairment from the terrible accident, he finds he has a supernatural power that slowly takes control of his life. His own impetuous behavior is rivaled only by that of his wife--who in her own bid to survive the lonely years without him, has reinvented herself in ways that defy description. The challenge for the two young lovers is to find common ground that will lead them back to the life they once knew. But that ground is elusive and unstable, prompting John's wife to turn to John's old college friend for help--and when she does, the plot thickens. By then a drought has gripped the Lower Forty-Eight and the real estate market is hyperventilating from reckless malfeasance, with John's wife in the center of it all. The people she works for want to own John and the very special gift he's come to possess, but she has other ideas. Her story-within-a-story has twists and turns that will keep you guessing till the very end. Accepting an assignment from the CIA to take out an arms dealer who is supplying criminal groups in Southeast Asia, assassin-for-hire John Rain finds the job compromised by a rival assassin and the fear that he is being set up. Reprint. "A scathingly honest memoir of entrepreneurship's dark reality... I would advise every entrepreneur--or anyone who dreams of becoming one--to read this book." --Eric Schurenberg - CEO, Fast Company and Inc. A young tech entrepreneur's memoir of building his hugely successful company and the mental and physical price he paid for it At the age of twenty-six, John Roa was an aspiring but struggling entrepreneur. He was broke, racking up debt, and ready to give up on his dream of being self-made. In a final effort, he founded the design firm ÄKTA, which quickly became one of the fastest growing startups in America, and just five years later, he sold it for a fortune to Salesforce, the largest company in San Francisco. This is his account of rising from a self-described below-average student to becoming a poster boy for the successful young entrepreneur, while nearly destroying himself in the process. His journey is an absurd, twisting, and often comical story of talent, luck, rapidly changing technology, larger-than-life personalities, sex, gambling, and excessive alcohol and drug consumption—which ultimately took their toll, resulting in a spectacular burnout that he almost didn't survive. As he healed in the aftermath, he began to question the ethos that had brought him to that dark place, and over time, came to realize how common these debilitating issues are in entrepreneurship, even if they are rarely discussed openly. Rather than another glamorous rags-to-riches saga, *A Practical Way to Get Rich . . . and Die Trying* is a cautionary and deeply honest memoir about the price of success for ambitious young people, who are so often unprepared for the adversity, mental health issues, and abuse that can come along with “making it.” It also serves as the foundation for a campaign of honesty and vulnerability, in an industry that currently lacks both. NEW YORK TIMES BESTSELLER New York Times bestselling author and acclaimed linguist John McWhorter argues that an illiberal neoracism, disguised as antiracism, is hurting Black communities and weakening the American social fabric. Americans of good will on both the left and the right are secretly asking themselves the same question: how has the conversation on race in America gone so crazy? We're told to read books and listen to music by people of color but that wearing certain clothes is "appropriation." We hear that being white automatically gives you privilege and that being Black makes you a victim. We want to speak up but fear we'll be seen as unwoke, or worse, labeled a racist. According to John McWhorter, the problem is that a well-meaning but pernicious form of antiracism has become, not a progressive ideology, but a religion—and one that's illogical, unreachable, and unintentionally neoracist. In *Woke Racism*, McWhorter reveals the workings of this new religion, from the original sin of "white privilege" and the weaponization of cancel culture to ban heretics, to the evangelical fervor of the "woke mob." He shows how this religion that claims to "dismantle racist structures" is actually harming his fellow Black Americans by infantilizing Black people, setting Black students up for failure, and passing policies that disproportionately damage Black communities. The new religion might be called "antiracism," but it features a racial essentialism that's barely distinguishable from racist arguments of the past. Fortunately for Black America, and for all of us, it's not too late to push back against woke racism. McWhorter shares scripts and encouragement with those trying to deprogram friends and family. And most importantly, he offers a roadmap to justice that actually will help, not hurt, Black America. A direct and modern application of timeless principles, used to gain success and self-mastery, as explained by direct-sales mentor and personal-growth expert John Lavenia. "[Jason Pargin] has updated the Lovecraft tradition and infused it with humor that rather than lessening the horror, increases it dramatically. Every time I set the book down, I was wary that something really was afoot, that there were creatures I couldn't see, and that because I suspected this, I was next. Engaging, comic, and terrifying." —Joe Garden, Features Editor, *The Onion* "[Pargin] is like a mash-up of Douglass Adams and Stephen King... 'page-turner' is an understatement." —Don Coscarelli, director, *Phantasm I-V*, *Bubba Ho-tep* "That rarest of things—a genuinely scary story." —David Wellington, author of *Monster Island*, *Vampire Zero* "JOHN DIES AT THE END has a cult following for a reason: it's horrific, thought-provoking, and hilarious all at once. This is one of the most entertaining and addictive novels I've ever read." —Jacob Kier, Publisher, *Permuted Press* STOP. You should not have touched this flyer with your bare hands. NO, don't put it down. It's too late. They're watching you. My name is David. My best friend is John. Those names are fake. You might want to change yours. You're under the eye. The only defense is knowledge. You need to read this book, to the end. Even the part with the bratwurst. Why? You just have to trust me. The important thing is this: The sauce is a drug, and it gives users a window into another dimension. John and I never had the chance to say no. You still do. I'm sorry to have involved you in this, I really am. But as you read about these terrible events and the very dark epoch the world is about to enter as a result, it is crucial you keep one thing in mind: None of this was my fault. John Hodgman—bestselling author, *The Daily Show*'s "Resident Expert," minor television celebrity, and deranged millionaire—brings us the third and final installment in his trilogy of Complete World Knowledge. In 2005, Dutton published *The Areas of My Expertise*, a handy little book of Complete World Knowledge, marked by the distinction that all of the fascinating trivia and amazing true facts were completely made up by its author, John Hodgman. At the time, Hodgman was merely a former literary agent and occasional scribbler of fake trivia. In short: a nobody. But during an interview on *The Daily Show* with Jon Stewart, an incredible transformation occurred. He became a famous minor television personality. You may ask: During his whirlwind tornado ride through the high ether of minor fame and outrageous fortune, did John Hodgman forget how to write books of fake trivia? The answer is: Yes. Briefly. But soon, he remembered! And so he returned, crashing his Kansas farmhouse down upon the wicked witch of ignorance with *More Information Than You Require*, a New York Times bestseller containing even more mesmerizing and essential fake trivia, including seven hundred mole-man names (and their occupations). And now, John Hodgman completes his vision with *That Is All*, the last book in a trilogy of Complete World Knowledge. Like its predecessors, *That Is All* compiles incredibly handy made-up facts into brief articles, overlong lists, and beguiling narratives on new and familiar themes. It picks up exactly where *More Information* left off—specifically, at page 596—and finally completes COMPLETE WORLD KNOWLEDGE. Look out for John Hodgman's latest book, *Vacationland*, available from Viking in Fall 2017.
